

Saurav Thakulla

Full-Stack Web Developer | React, Node.js & PostgreSQL

sauravthakulla683@gmail.com | +91 93753 32312 | Bengaluru, India | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-stack web developer and BCA graduate building production web applications, REST APIs, and scalable backend systems with React, TypeScript, Node.js, Express, and PostgreSQL. Promoted to a full-time role at MentoDesk after completing a six-month internship. Also built and deployed Aurax.fit end to end and created QuickWheel, an AI-assisted native Windows productivity application.

EXPERIENCE

Full-Stack Developer - MentoDesk

Jul 2026 - Present

Previously Full-Stack Developer Intern | Jan 2026 - Jun 2026 (6 months) | Bengaluru, India

- Promoted to a full-time position after the internship and continue delivering production features across React, TypeScript, Node.js, Express, and PostgreSQL.
- Built role-based dashboards and REST API workflows for administrators, mentors, mentees, programs, task boards, reporting, participant assignment, attachments, filters, and audit logs.
- Resolved numerous backend logic and frontend issues, significantly reduced filter response times, and optimized database queries to improve API performance and overall application responsiveness.

SELECTED PROJECTS

Aurax.fit - Fitness & Social Mobile Platform

2026

React Native, Expo, TypeScript, Node.js, Express, PostgreSQL, Drizzle ORM, Docker

- Built an Android fitness platform with workout and exercise logging, food diary, hydration, step tracking, barcode search, social posts, voting, saves, XP, levels, and streaks.
- Implemented Google and email authentication, OTP recovery, role-based access, Health Connect permissions, rate limiting, offline-safe mutations, account deletion, rewarded ads, coins, and premium feature limits.
- Dockerized and deployed the API behind Nginx and HTTPS on DigitalOcean with Supabase PostgreSQL, custom domains, OAuth credentials, Play App Signing, and Google Play closed testing.

QuickWheel - AI-Assisted Native Windows Radial Launcher

v1.6

C#, .NET 8, WPF, Win32 APIs | AI-assisted / vibe-coded product development

- Designed and iterated the product through an AI-assisted workflow: converted feature ideas into implementation prompts, reviewed generated code, debugged native Windows behavior, refined the UX, and validated releases.
- Built a hold-aim-release launcher with configurable 4-12 slot wheels, an optional utility ring, drag-and-drop setup, unlimited profiles and wheels, app/folder/file/website/Steam/command launching, tray controls, and auto-start.
- Implemented a low-level global keyboard hook, JSON configuration with backup and migration, per-monitor DPI support, Xbox controller input, plugin-ready launch handlers, and self-contained Windows x64 builds.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), SQL, C#, C++

Frontend & Mobile: React Native, Expo, React.js, WPF, HTML5, CSS3, Tailwind CSS, TanStack Query, Zustand

Backend & Data: Node.js, Express.js, REST APIs, Drizzle ORM, PostgreSQL, MongoDB, Supabase, Redis fundamentals, OAuth, OTP, RBAC

DevOps & Engineering: Docker, Nginx, Linux, DigitalOcean, DNS/HTTPS, AWS SES, Git/GitHub, API security, rate limiting, idempotency, background jobs, database indexing

EDUCATION & ACHIEVEMENTS

Bachelor of Computer Applications

Garden City University, Bengaluru
Sep 2023 - May 2026

Achievements

- IIT Bombay Techfest Zonal - 2024 & 2025
- Aarohan Viksit Bharat Hackathon - 2025
